VP PRODUCTIONS, INC.

BRINGING YOUR CONCEPTS TO LIFE...

**V.P. Productions, Inc.** is a full service animation company manufacturing **custom** animatronic characters for the themed entertainment industries. We have created some of the finest animatronic characters to be found anywhere in the world. Examples of our work can be found in numerous far away places such as Australia, Japan, Korea, India, Germany, Belgium, Spain, the UK , Holland and many other well known locations within the United States.

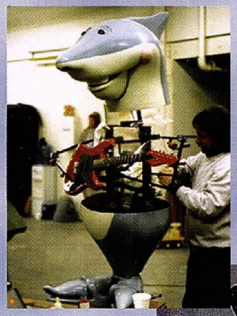
In the past, animatronics were generally known to be complicated, expensive pieces of machinery with uncertain life expectancy at best. Our goal at **V.P. Productions**, Inc. is the same now as it was when we first opened our doors in 1986, to supply the most cost efficient and maintenance free animatronics available on the market today.

At **V.P. Productions, Inc.**, we work "with" you to develop a custom animatronic character or animated show that is yours exclusively.

Our greatest asset is the group of talented artisans, all of which are experts in their field, that we have assembled together to provide our customers the absolute finest product available anywhere.

Three-D-Motion characters sell products and services, deliver messages, promote companies, inform and entertain audiences-all with riveting sight and sound, they bring out the kid in all of us!

Our animatronic characters are pneumatically operated (compressed air) for life-like motion, dependable operation, and minimal maintenance. Each character can be produced with either analog or digital movements, or a combination of both.



Three-D-Motion characters are ideal wherever you need high "stopping power" and entertainment. V.P. Productions also helps exhibitors draw attention and traffic to trade show booths, showrooms, lobbies, fairs and theme parks.
